

Jacksonville National Cemetery

4083 Lannie Road Jacksonville, FL 32218

Project Description:

The initial Phase 1A construction efforts focused on a 20-acre early burial area with temporary facilities. The 52-acre Phase 1 development will provide 8,145 full casket gravesites, including 7,300 pre-placed crypts, 5,100 in-ground cremation sites and 4,992 columbarium niches. Phase 1 included roadways, an entrance area, an administration and public information center, a maintenance complex, a flag assembly area, a memorial walkway, two committal service shelters, and interment areas. Other infrastructure improvements included grading, drainage, fencing, landscaping, irrigation system and utilities. This 526-acre national cemetery in Jacksonville, Florida will serve veterans' needs for more than 100 years.

Responsibility of QGS: First phase of a national cemetery: clearing, earthwork, drainage, water, sewer, irrigation, roads, signage, striping, curb, sidewalk, grassing, landscape, restroom, security booth, 1,506 crypts, and 2,297 conventional gravesites.
